

STANDARDS

- ISO 5211 direct mounting pad
- Pressure test: API 598
- 100% air tested under water at 80 psi

DM2700 Series Top Entry Ball Valve

FEATURES & BENEFITS

- Available in stainless steel or carbon steel
- Body and flange cap are investment cast
- Self-adjusting stem packing and blow-out proof stem design
- Working pressure: Class 300
- Temperature range: -20° to 1000°F
- Locking device
- Silicon free
- Top entry is convenient for in-line repair and cleaning the valve and components
- While the valve is in the "open" position, it is easy to draw out the bonnet with the ball and seat at one time without any other tools or devices
- While the valve is in the "closed" position, the ball and seat will be compressed together closely

APPLICATIONS & INDUSTRIES

- Natural gas
- LNG
- Crude oil
- Refined products transmission lines
- Offshore platforms
- Onshore terminals
- Metering stations
- Surge-relief skids
- Dirty/abrasive service
- General industrial applications
- General oil & gas applications
