

## **STANDARDS**

- Design and manufacture: BS 1873 and ASME B16.34
- End flange dimension: ASME B16.5
- BW end dimension: ASME B16.25
- Face to face and end to end dimension: ASME B16.10
- Pressure - temperature rating: ASME B16.34

# **J Flow Controls GB Series Globe Valves**

## **FEATURES & BENEFITS**

- Bolted bonnet; outside screw and yoke; rising stems; metallic seating surfaces
- The body and bonnet of Class 150 - Class 900 valves are usually with studs and nuts. And the body and bonnet of Class 1500 - Class 2500 valves are usually of a pressure seal design.
- Gasket of cover flange: stainless steel + flexible graphite wounded gasket is used for Class 150 and Class 300 globe valve. Stainless steel + flexible graphite wounded gasket is used for Class 600, and ring joint gasket is optional for Class 600. Ring joint gasket is used for Class 900 globe valve. Pressurized seal design is used for Class 1500 - 2500 globe valve.
- Actuation: handwheel, impact hand wheel and gear box are usually used for globe valve actuation. Chain wheel and electric actuator can be used for globe valve actuation if requested by customers.
- If requested by the customer, the Belleville spring loaded packing impacting can be adopted for enhancing the durability and reliability of the packing seal.
- All our globe valves have the back seat sealing design. In most cases, the carbon steel globe valve is fitted with a renewable back seat. For stainless steel globe valve, the back is machined directly in the bonnet or is machined after welding. When the globe valve is at fully open position, the sealing of the back seat can be very reliable.

## PARTS IDENTIFICATION

Available with Handwheel Operator

Bearings For Large Torque Loads

Double Disc For High Axial Stress

### Design Description

- Straight pattern body design
- Outside screw and yoke (OS&Y)
- Bolted Bonnet (BB)
- Yoke integral with bonnet
- Rising stem and handwheel
- Loose disc, optional plug or ball type
- Renewable seat ring
- Impact handwheel for NPS 10 and above
- Horizontal service
- Flanged or butt welding ends
- Available with bevel gear op

### Main Materials

- WCB, LCB, WC6, WC9, CF8, CF8M, CF3, CF3M, A995 4A, A995 5A, A995 6A, Alloy 20, Monel, Inconel
